EXECUTIVE SUMMARY

Self-taught Software Developer with foundational knowledge of software development, backend engineering, and secure coding practices. Interested in building practical applications that solve real-world problems and understanding the underlying principles of software and computer systems. Quick learner with a strong ability to adapt to new technologies and frameworks.

SKILLS

Languages: C, Java, Python, JavaScript

Frontend: React

Backend: Spring Boot, Express.js, Flask

Database: MongoDB, MySQL

DevOps & Tools: Git, Docker, Vercel

Security & Testing: OWASP Top 10, API Testing (Postman), Google Lighthouse

PROJECTS

Creator Portfolio Platform

Tech: React, Vercel

- Developed a responsive portfolio platform for a content creator to showcase and distribute digital works.
- Implemented file viewing and download functionality to improve user accessibility.
- Designed a client-focused interface for professional presentation and content engagement.
- Optimized frontend performance and deployed the application using Vercel.

CodeBreaker Arena — In Development

Tech: Java, Spring Boot, Docker, MySQL, Thymeleaf

- Designing a gamified coding platform that enables students to practice programming through interactive challenges.
- Designing backend architecture and RESTful APIs for problem management, submissions, and user progress.
- Exploring secure code-execution architecture using sandboxing to isolate user-submitted programs.
- Containerizing application services using Docker for consistent development and deployment environments.
- Applying OWASP Top 10 security principles to the platform's backend architecture and API design.

Status: In Development

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology

2023 – 2027 (Expected)

Jayaraj Annapackiam CSI College of Engineering, Tuticorin, Tamil Nadu
